

Dr. Wheelon

Thru: Executive Officer
Air Force R&D Monthly Review
Sessions

12/66
1. Recently, at the request of [redacted]
I contacted Col. Bomba, Chief of the AF Manage-
ment Procedures Division, who is handling the
arrangements for the briefing "The Future of
Military Space" to be held at the Pentagon on Sat.,
5 Feb 66. John mentioned that OSP would like to
have at least three places and that [redacted]
and Bob Chapman might also attend. I told Col.
Bomba of our interest in an additional two spaces
(a total of four), if available, and he promised to
keep this in mind and advise us when the attendance
list is firmed up which should be about 1 Feb.

2. In a subsequent conversation, a Maj. Slosser,
who is directly charged with arranging these
briefing sessions for Gen. Ferguson, asked if CIA
would be receptive to an invitation sometime during
the coming year to give one of these Saturday pre-
sentations. I told him that a strong rapport existed
between you and Gen. Ferguson and that I would
mention this matter to you.
